

SIAM

1894-99. Large Roman Surcharges.

1 Att. on 64 Att.

Setting C.

As stated on a previous page, Setting C. of the 1 Att. was printed from the right-hand half only of the original Setting. The characteristic varieties of this half thus occur twice in each sheet of stamps, on the same horizontal row, but, separated by five vertical rows from each other.

A block from the centre of the sheet is appended, to show the new positions of these varieties (the other places in which they occur are, of course, the old ones.)

It must, however, be noticed that owing to great use for a long period, the Setting is showing considerable signs of wear, & other characters are now showing damage & breaks.
